

AEROASIA-HYDROMEX TECHNOLOGIES CO. LTD.

ADVANCE OXIDATION PROCESS APPLICATION
WATER & WASTEWATER TREATMENT

Established in 2009, Aeroasia Hydromex Technologies Co. Ltd. is a leading wastewater treatment company. We specialize in the application of Advanced Oxidation Process (AOP) technology, providing sustainable and efficient solutions for water purification. Our commitment to technological innovation ensures we meet the highest standards of environmental responsibility and deliver superior value to our nationwide clientele.

Aeroasia-Hydromex

"Revolutionizing Wastewater
Treatment, One Drop at a Time."

COMPANY OVERVIEW

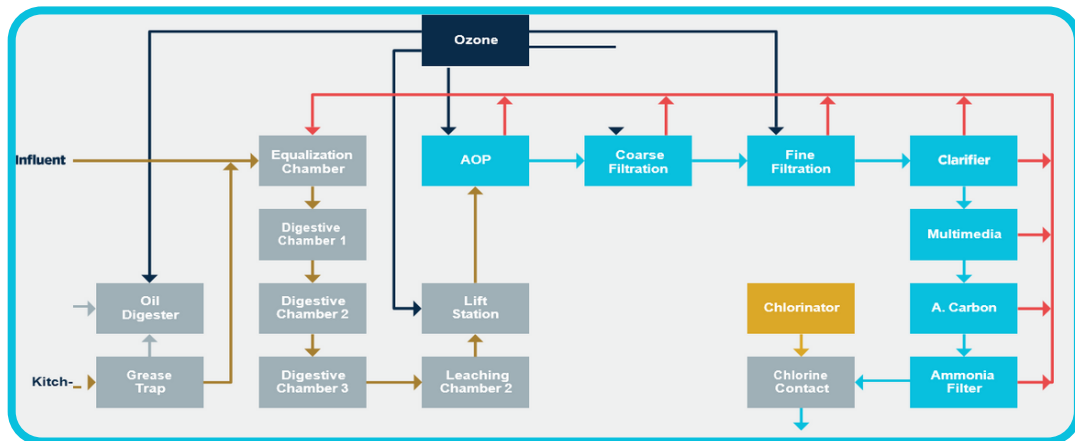

BRIEF HISTORY

Aeroasia-Hydromex Technologies Co. Ltd. has a rich history rooted in innovation and collaboration. In 2006, the groundwork for the company was laid when Engineer Norlan Unson of Aeroasia partnered with Doctor Harald Kremnitz of HWK Foundation. Together, they adapted the patented Hydromex technology, initially designed for toxic and hazardous waste treatment, to address wastewater management.

This groundbreaking application spurred extensive research and development efforts, leading to the creation of a locally developed technology known as the Advanced Oxidation Process (AOP). Over the years, this technology has evolved and matured, and it now stands as a testament to our commitment to providing efficient and sustainable wastewater treatment solutions.

In 2009, with the refined AOP technology, Aeroasia-Hydromex Technologies Co. Ltd. was officially established, marking the beginning of the journey in revolutionizing the wastewater treatment industry. The history is a testament to Aeroasia's expertise and dedication to bringing about impactful change in environmental management.

CORE TECHNOLOGY

AOP TECHNOLOGY

The Advanced Oxidation Process (AOP) is a cutting-edge technology that is utilized for wastewater treatment. It involves the generation of *hydroxyl radicals* – highly reactive oxygen species, capable of breaking down a wide range of pollutants, including those resistant to conventional treatment methods.

In the context of wastewater treatment, AOP technology plays a crucial role. It helps in the efficient removal of various contaminants including organic materials and microorganisms, making the water safe for discharge or reuse.

At AeroAsia Hydromex Technologies Co. Ltd., we use AOP technology to transform the way wastewater is treated. Our locally developed AOP system ensures high treatment efficiency, contributing to water conservation and environmental protection by turning wastewater into a resource rather than a waste product.

OUR SERVICES AND EXPERTISE

WASTEWATER TREATMENT PLANT FOR HEALTHCARE INDUSTRY

The Advance Oxidation Process as applied on hospitals, clinics, dialysis centers and other healthcare facilities has been on the scene since 2009. The Aeroasia-Hydromex AOP setup proves to be effective even in the presence of anti-biotics, chemical reagents and disinfectants on the wastewater stream. Old installations designed for DAO 35 has been successfully upgraded to DAO 2016 with minimal cost. Present design is even more flexible as it is ready for upgrading to 100% recycling option.

WASTEWATER TREATMENT PLANT FOR COMMERCIAL CENTER

The Advance Oxidation Process has been the choice of many architects and engineers for commercial developments. The small space requirements and cost-effective operation are tailored to fit this type of industry.

WASTEWATER TREATMENT PLANT FOR FOOD INDUSTRY

The Advance Oxidation Process in combination with an effective oil interceptor and oil digester has been proven effective in food industries. The oil digester is an exclusive design of Aeroasia-Hydromex, it solves the problem of FOG disposal common in the food industry. The oil digester treats FOG to minimize foul odor, reduce the volume by as much as 90%, and render it degradable.

OUR SERVICES AND EXPERTISE

WASTEWATER TREATMENT PLANT FOR TOURISM & RESIDENTIAL INDUSTRY

The Advance Oxidation Process as applied to hotels, resorts, condominium units, and other developments residential in nature has been a perfect fit. The process which produces minimal noise level, tolerable odor emission, and high-quality effluent discharge is best suited for highly populated areas with strict environmental regulations.

WASTEWATER TREATMENT PLANT FOR LIGHT INDUSTRY APPLICATION

The Advance Oxidation Process is the best option for light industries such as warehouses, logistics, offices, and BPO centers that produce a minimal volume of pollutants but still need compliance. The process produces minimal noise level, tolerable odor emission, and high-quality effluent discharge and is best suited for this industry usually located in urban areas with strict environmental regulations.

WASTEWATER TREATMENT PLANT FOR OTHER APPLICATION

The Advance Oxidation Process is proven to be a very versatile technology when it comes to flexibility on applications. It can be used as pre-treatment, polishing setup, capacity upgrading, cost reduction measure, and many other possibilities.

Completed Projects

COMPLETED PROJECTS ON HEALTHCARE

1. Calamba Medical Center—Calamba City, Laguna—2009
2. San Pablo Doctors Hospital—San Pablo City, Laguna—2009
3. Community General Hospital, San Pablo City, Laguna-2010
4. Laguna Doctors Hospital—Sta. Cruz, Laguna-2010
5. Paete General Hospital—Paete, Laguna-2011
6. Siniloan Pioneer General Hospital—Siniloan, Laguna-2011
7. Luis Tirso Medical Center—Paniqui, Tarlac-2011
8. Dr. Montano Ramos Medical Center—Quezon City-2011
9. Perpetual Soccor Hospital-Sampaloc, Manila-2012
10. Mendero Medical Center-Consolacion, Cebu-2013
11. Gabriela Silang General Hospital-Vigan, Ilocos Sur-2013
12. Palawan Adventist Hospital—Puerto Princesa City, Palawan-2014
13. Urduneta Sacred Heart Center—Urduneta City, Pangasinan-2014
14. Calamba Medical Center Tower 2—Calamba City, Laguna-2015
15. Our Health Center—Cabuyao, Laguna-2015
16. Metro Antipolo Medical Center—Antipolo City-2016
17. Southern Isabela General Hospital—Santiago City, Isabela-2016
18. Sacred Heart Medical Center—Angeles City, Pampanga-2016
19. Calamba Medical Kidney Center—2018
20. Manila Adventist Hospital-Pasay City-2018
21. Taytay Doctors Hospital—Taytay, Rizal-2019
22. Ortigas Hospital—Cainta Rizal-2019
23. Maitum Municipal Hospital Saranggani 2019
24. Ace Medical Center-Cebu City-2019
25. Mandaluyong City Dialysis Center-2019
26. Rosario Maclang General Hospital—Batasan Quezon City-2019
27. Morong Medical and Hemodialysis Center—Morong, Rizal-2020
28. Urdaneta Sacred Heart Center (Upgrading of STP Equip) —Urduneta City, Pangasinan-2021
29. Metro Lemery Medical Center—Lemery Batangas-2021
30. Rosario Memorial Hospital—Pampanga-2021
31. Metro San Jose Medical Center—San Jose Batangas-2021
32. Cabuyao City Hospital-Cabuyao Laguna-2021
33. Hemotek Renal Center—San Fernando Pampanga-2021
34. Karmelli Clinic and Hospital-Laoag City, Ilocos Norte-2021
35. Batugan City Doctors Hospital-Bayugan City, Agusan del Sur-2021
36. Allied Care Experts Medical Center—Tacloban City-2022
37. Allied Care Experts Medical Center—Puerto Princesa City, Palawan-2022
38. Sta Rosa Hospital and Medical Center-Sta Rosa, Laguna-2022
39. Palawan Adventist Hospital—Puerto Princesa City, Palawan-2021
40. Morong Medical and Hemodialysis Center—Morong, Rizal-2020
41. Siniloan Pioneer General Hospital (Upgrading of STP Equip)—Siniloan, Laguna-2022
42. Unihealth Quezon And Medical Center—Tayabas Quzon-2022
43. Christ the King Hospital—Las Piñas-2022
44. Unihealth Southwoods Hospital and Medical Center —2023
45. Urology Center of The Philippines —2023
46. Lipa Medix Medical Center Batangas —2023
47. Jkq Medical and Wellness Center Pangasinan —2023
48. Sto Rosario Hospital Batangas —2023
49. St John The Baptist Hospital Laguna —2023
50. Mabini General Hospital Batangas - 2023

Completed Projects

COMPLETED PROJECTS ON COMMERCIAL DEVELOPMENTS

1. EM Commercial Center—Binangonan, Rizal-2015
2. Madison Galleries— Muntinlupa City-2015
3. Gaisano Mall Surigao—Surigao City-2015
4. Gaisano Mall Danao—Danao Cebu- 2016
5. Gaisano Mall Balamban— Balamban Cebu-2016
6. I-Mall Camarin— Caloocan City-2017
7. Oakridge 1— Cebu City-2017
8. Gaisano Mall Calapan— Calapan City Mindoro-2017
9. Gaisano Mall Bislig— Bislig Cebu-2017
10. Gaisano Mall Lapaz— Lapaz Ilo-ilo City-2017
11. Gaisano Mall Digos— Digos City-2018
12. Gaisano Mall Calbayog— Calbayog City-2018
13. Gaisano Mall Jaidai— Cebu City-2018
14. Gaisano Mall Tisa— Cebu City-2018
15. East Narra Event Center— Concepcion, Marikina City-2018
16. Gaisano Mall Mambaling-Cebu City-2018
17. Gaisano Mall Buhangin— Davao City-2018
18. Jumbo Jenra Mall— San Fernando City Pampanga-2018
19. Lucky Gold Plaza— Pasig City-2018
20. Oakridge 2— Cebu City-2018
21. Jenra Mall— Angeles City-2019
22. Gaisano Mall Kidapawan— Kidapawan City-2019
23. I-Mall Antipolo— Antipolo City-2019
24. Gaisano Mall Talamban— Cebu City-2019
25. Gaisano Mall Sara— Ilo-ilo City-2020
26. Gaisano Mall Estancia-Ilo-ilo City-2020
27. Gaisano Mall Mandaue— Cebu-2020
28. EM Commercial Center (Upgrading of STP Equip)— Binangonan, Rizal-2022
29. Jumbo Jenra Mall/Supermarket (Upgrading of STP Equip)— San Fernando City Pampanga-2022
30. Unisun Shopping Mall— Sta Cruz, Laguna-2022
31. iMet BPO Towers—Moa Complex, Pasay City
32. Raftel Commercial Building – 2023
33. Greenstone Resource Corporation Bldg. – 2023

Completed Projects

COMPLETED PROJECTS ON TOURISM & RESIDENTIAL INDUSTRY

1. Panglao Island Resort and Spa-Panglao, Bohol-2015
2. Gaisano City Soho- Cebu City-2015

7. Therma South Inc. (ABOITIZ)- Davao City-2022
8. Hasting Motors Corporation-Carmona Cavite-2022
9. SB Hain Landfill-CalmBa City-2022
10. Corpbay Industrial Park Laguna - 2023

OUR COMMITMENT

MISSION

To redefine the wastewater treatment landscape by utilizing AOP technology and be the preferred wastewater treatment company in every industry by building enduring relationships with our clients through unwavering dedication to excellence.

VISION

Our vision is to lead in providing innovative wastewater treatment solutions in the Philippines, with a focus on sustainable and efficient water purification. We commit to uphold environmental responsibility and surpass industry standards. We aim to transform the wastewater treatment landscape, build lasting relationships with our nationwide clients, and consistently deliver excellence and technological innovation.

CORE VALUES

At Aeroasia Hydromex Technologies Inc., our core values, the AERO-way, define who we are and how we operate. These values guide our actions, decisions, and interactions, ensuring that we maintain a commitment to excellence and environmental responsibility. The AERO-way reflects our dedication to Accountability, Environmental Commitment, Reliability, and Openness to Innovation. These principles are the foundation of our company culture, driving us to excel in wastewater management and contribute to a sustainable future.

A – Accountability

We take responsibility for our actions and results, ensuring transparency and reliability in all we do.

E – Environmental Commitment:

We are deeply committed to protecting the environment, driving our decisions and innovations.

R – Reliability

Our customers can always rely on us for top-quality products and services.

O – Openness to Innovation

We embrace new ideas and technologies, fostering a culture of continuous improvement.

OUR TEAM

NORLAN G. UNSON

GENERAL MANAGER

The founder of Aeroasia, he brings extensive industry expertise and visionary leadership. He drives Aeroasia's strategic growth and innovation with a customer and environmental-centric approach.

NOMER G. UNSON

RESEARCH & DEVELOPMENT MANAGER

A vital part of the company, with a deep understanding of chemical processes , he significantly contributes to the company's innovative and efficient wastewater treatment solutions.

MAP OF THE ORGANIZATION

Aeroasia-Hydromex
